

PLANETCARE
Community Initiative Ghana

Organisation Profile

Empowering Communities. Protecting the Planet.

About PlanetCare

PlanetCare Community Initiative Ghana LBG is a non-profit, non-partisan organisation dedicated to empowering communities across Ghana to protect and restore their environment. Through grassroots action, education, advocacy and research, we help rural and underserved communities build resilience against climate change, water scarcity, pollution and biodiversity loss, while improving access to potable water, sanitation and clean energy.

Legal status

PlanetCare is incorporated in Ghana as a Company Limited by Guarantee (LBG). It was founded by a team of Ghanaian and international academics and practitioners in environmental science, chemical engineering and social ecology.

Vision

To build resilient communities where residents and the environment flourish through access to potable water, proper sanitation solutions, and clean energy, driven by community action, collective responsibility, and sustainable living.

Mission

To empower underserved rural communities to safeguard their environments through education, environmentally sustainable practices, and collective action that advances green energy usage, ecological resilience and social well-being.

Focus areas

Water, Sanitation & Hygiene (WASH). Promoting WASH education for disease prevention and public health improvement in rural communities.

Community-Led Conservation. Mobilising community volunteers and youth for hands-on environmental conservation activities.

Research & Advocacy. Undertaking environmental research and promoting policies that safeguard ecosystems and environmental justice.

Clean Energy Access. Designing and supporting solar, biogas and improved cookstove solutions for communities, schools and clinics.

Climate Resilience. Building awareness and local capacity to adapt to climate change and ecological challenges.

Partnerships for Impact. Collaborating with government, development partners and the private sector to mobilise resources for rural transformation.
